

**MORE THAN 90% OF CONSUMER CAR
USING CHEAP FILM
WITH HIGH PRICE IN MARKET!**

MOST OF THEM ARE CHEATED!!!

**OMG!!!
How about
my car tint?**

What are the **PROBLEMS** with Cheap Film?

Poor Heat Rejection

Within 2 year

Low Grade Film offers heat rejection functionality for the short time of period. **Heat Rejection Drops Over 50% Within 1 year.**

What are the **PROBLEMS** with Cheap Film?

Film Colour Fading

Within 1-2 year

Cheap Window Tint usually means No UV inhibitors. UV rays causes colour fading and heat performance degrades over time.

What are the **PROBLEMS** with Cheap Film?

Poor Driving Vision

All Time

Cheap film is using low cost PET base line, chemical coating method and rough adhesive layer which cause uneven texture on tint film and visually darkening.

What are the **PROBLEMS** with Cheat Film?

Killing You with Toxin

All Time

Poor tint film is unable to reduce the heat trapped inside car. The extreme heat releases dangerous level of Lead and Benzene from car interior plastic material that causing cancer.

Toxic Gas
Benzene

What are the **PROBLEMS** with Cheat Film?

Bubbles Pops

Within 2 year

Blistering or Bubbles is the result of the manufacturer of the film cutting costs and using inferior quality adhesives in the coating process. It makes your dream car look terrible.

Common **MISTAKE** Made by Consumer?

Cheap Price Window Tint with High Quality
.....A lot of people want it.

But Nobody know how to read the film.
End up, people buy Fake product with High price!

Consumers are easily **SCAMMED**
because all window films
LOOK THE SAME
And it is difficult to verify its
QUALITY & ORIGINALITY.

No Specific
Physical
Identity

No Specific
Identity Code

No Specific
Color

What are the **SCAM** practices that **HAPPENING** in market today?

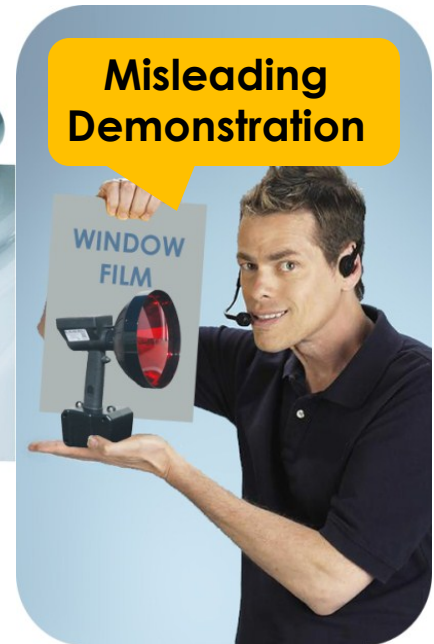

Over 90% of junk window product in market is not from USA. Seller cheated customer is USA product.

Do not trust on product spec printed on brochure. It may be 40% - 50% different.

In order to make more **PROFIT**. Seller **SWAP** other or fake product during installation.

Provide Misleading Info, message and spotlight testing.

Most of time
Tinting Shop that could
offered the **Highest Heat
Rejection** with the
Lowest Price will always
WIN THE BUSSINESS DEAL.

Greatest **LIAR** is
always the **WINNER!**

Why still **MANY** tinting shop **KEEP** selling low grade film?

Low Grade
Film's performance
is good when it is
newly purchased.

People
have no idea how
to verify the film
quality and is it
original or not?

People unable
to verify the
problem that
happen on low
grade film.

Unethical
Dealer can make
more profit
by selling cheap
film with
Premium price.

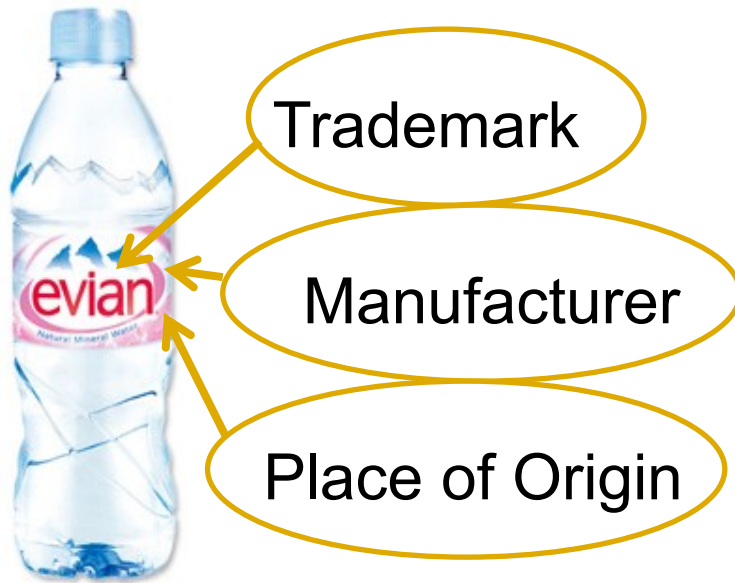

Tips to Chose The Right Tint

- ✓ **Good Brand** Selling USA Genuine Product.
- ✓ **Original** Brand Product
- ✓ Test Film with **Solar Meter** before and after installation

BRAND IDENTITY is Important to Represent a Business and Company

Selling \$1.00
